University of Massachusetts Lowell

Be a Part of the Discussion at the

Third Annual Climate Change Teach-In

"Old Media, New Media: the Promise and Perils of Communicating Climate Change"

Featuring Geoffrey Haines-Stiles, writer and producer of *"Earth: The Operators Manual"*

Geoff Haines-Stiles is writer/director of the media project, "*Earth: The Operators' Manual*." Hosted by renowned geoscientist Dr. Richard Alley, and funded by the National Science Foundation, the project conveys climate change science and sustainable energy solutions in accessible, innovative ways.

Be part of a sneak preview and an open discussion of what worked—and what didn't—in this project AND in climate change film shorts by UMass Lowell students! Segments will include Richard Alley bungy-jumping to illustrate climate tipping points, a Rear Admiral presenting the Pentagon's view on climate change, "Mr. Mayhem," and "Toilets and the Smart Grid." But to find out just what that's about, you'll have to attend!

Date: Thursday, October 20, 2011
Time: 11 a.m. – 12:30 p.m.
Place: Cumnock Hall, North Campus, UMass Lowell,One University Ave., Lowell, MA 01854

Registration is free and open to the public, but space is limited. Please register by October 10, 2011.

For more information and to register, please go to: http://www.uml.edu/centers/climate-change/ or Google "UMass Lowell Climate Change Initiative"

Ask your professor about getting extra credit for participating in the Teach-In.
