**PROMOTES STUDENT LEARNING** (WEAK TO STRONG)  
1 2 3 4  
COMMENTS Really dependent on how well the teacher leads the pre and post discussions of differences between weather and climate, and on how well the students analyze the data they collect to see patterns or how the data gives weather information.

**APPROPRIATE/EFFECTIVE MULTIMEDIA DESIGN** (WEAK TO STRONG)  
1 2 3 4  
COMMENTS Pictures in middle of background info are not referred to at all. Just for pretty.

**VISUAL APPEAL** (WEAK TO STRONG)  
1 2 3 4  
COMMENTS Pretty basic.

**TEACHING TIPS:** ANNOTATION DESCRIBING HOW SITE COULD BE USED OR ADAPTED FOR CLASSROOM  
Site tells about the difference between climate and weather, but only has students collect weather data. Learning depends on questions asked during discussion at the end to bring up the climate differences. It would help to have...
more structure for the students to use to bring out the climate comparison to the weather measurements, and to have a chart attached ready to use for collecting the weather data.

**RECOMMENDATION:** ANNOTATION DESCRIBING HOW THE DEVELOPER COULD IMPROVE THE SITE.

Add form for weather data collection.
