

1 Layer Atmosphere Model (Earth Energy Model 3)

Here the model has been modified through the addition of an atmosphere composed of one layer.

Based on the following reading:
Few, A.A, 1996, System Behavior and System Modeling, Sausalito, CA: University Science Books, p. 27-37.

Harte, J., 1988, Consider a Spherical Cow, Sausalito, CA: University Science Books, p. 69-72, p. 160-167.
