

Name: _____

1. What geological knowledge did you gain as a result of this modeling exercise?
2. What modeling concepts do you think I was trying to teach you with this exercise?
3. How did the readings contribute to your geological knowledge and/or your comprehension of the modeling problem?
4. How well do you understand the mathematics behind the model?

5. Did the presentation of the readings help you to understand them better? (Please note here if you were the presenter or in the audience).

6. Additional comments?
