

The Wild Center's Summer Institute for Teachers: Climate Change Solutions

July 13-16, 2020

North Country School's Rock-E House & Basecamp
Lake Placid, NY

Want to get your students engaged climate change solutions? Join a network of teachers for a hands-on exploration of climate solutions education hosted at North Country School's [Rock-E House & Basecamp](#). With interactive workshops, field trips, and guest speakers, teachers will examine youth-driven, action-oriented strategies for bringing climate change solutions into their classroom. Curriculum planning time is incorporated into the program, and ***teachers are strongly encouraged to attend in teams from their district.*** Content is best suited for middle and high school teachers across all disciplines. Residential and non-residential options available.

COST

Residential: \$400, includes meals and onsite lodging

Non-Residential: \$200, lodging and some meals on your own

Eligible for Continuing Education credit
